Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

It seems that the "common" working man is the one that gets the shaft. Naturally, I am sure you will raise the rates on your cell phones too. After all, what is good for the goose is good for the gander!! Most of us are low volume users and do not spend time yacking all day and most of us have to work for a living. This extra addition in fees is not only unfair but unrealistic. What's next? Taxing fax machines, copier machines, internet service?

Please leave cell phones alone and try to pursue other avenues like taxing porn sites, etc.

Linda Fox

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
